

Cables and Plugs

1/4 inch phono plug also called a TSR plug (Tip, Sleeve & Ring) for the stereo or TS for the mono. Guitar, keyboards cables, headphones, speaker cables.

Mini-phono plug or 1/8 inch phono. Headphones.

Whith both 1/4" and mini-phono plugs, one stripe is mono (same thing out of both speakers) and two stripes is a stereo plug. Use stereo (TSR) for external mics on MicroTrack II.

RCA or pin plugs. Audio equipment like tape/CD players.

XLR - female. Notice three holes for the three pins of the XLR male. These are used for microphones & speakers.

XLR - male. Notice the three pins. Most cables have a male on one end and a female on the other. The male goes to the board and the female to the mic.
